

Q.01. Two different views of a solid object are shown below. If viewed from a different direction as the arrows suggest, what would the view be?

Q.02 Shown below are two metal bolts. Suppose they were to be rotated (at the same rate) in the two directions as shown by the two arrows respectively, what would happen to the distance between the two bolt heads?

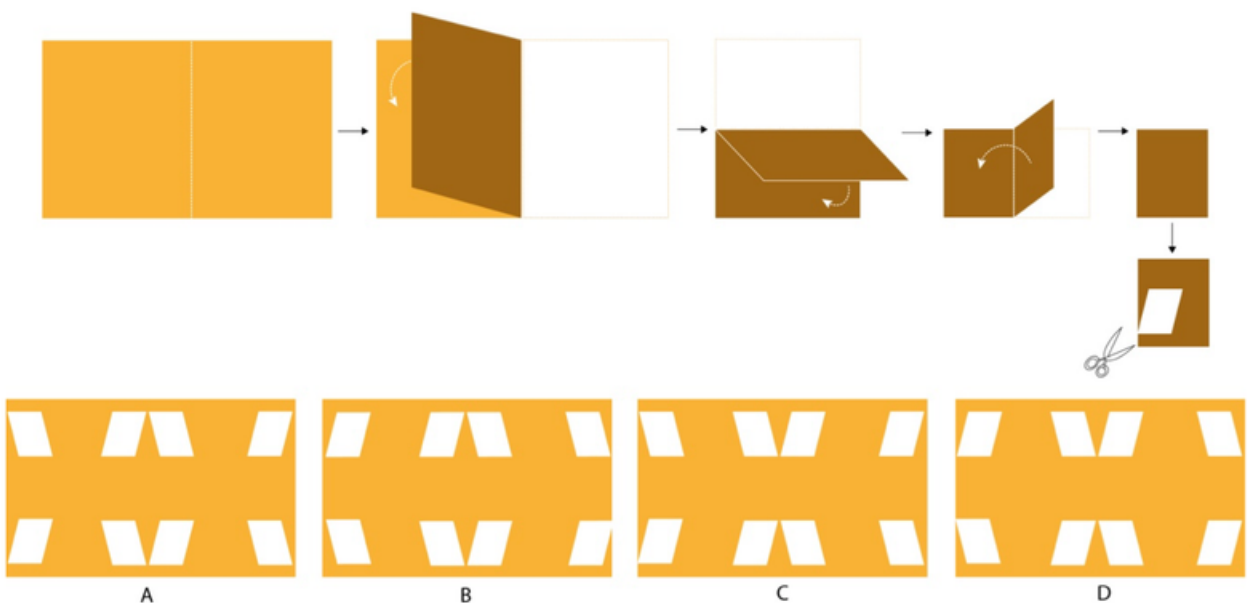

- A. Move closer to each other
- B. Move farther apart from each other
- C. Remain at the same distance from each other
- D. The bolts cannot be rotated

Q.03 Where is this famous painting from?

- A. Korea
- B. China
- C. Japan
- D. Indonesia

Q.04 Select the correct option.

Q.05 In the figure given below which of the options will replace the question mark?
